

From the Principal's Desk...

Dear Parents and Guardians,

I'd like to remind all of our families that next Friday, November 3, 2017, is the date slated for our District's Mandatory "Emergency Disaster Preparedness Drill."

This drill is designed so that our district can practice our procedure for transporting students home in the event that inclement weather or a similar disaster affects our schools. All students will be transported home 15 minutes early (2:55 p.m.) on Friday, November 3, 2017.

Once we have ensured that all students have left school safely, all adults will leave and the school will be closed. On that day, students will be dismissed to the location you have indicated on the student verification form in case of an emergency closing. This address may be different from any other alternate arrangements you might presently have in place for your child, like a baby-sitter. Therefore, please be sure that you have made the necessary provisions for your child's dismissal that day.

In the event that you need to contact the schools after the dismissal time, please call 518-207-2580. You will reach the Transportation Department that will be acting as the emergency command post that would be activated if a real disaster occurred.

It is very important that any changes to Emergency Drop Off Locations be made with the school office before the day of the drill. We cannot make changes on November 3rd as the Transportation is routing over 4,000 students to Emergency Locations that day. Please avoid picking your child up from school on the drill day. Every child should know how to get to their Emergency Location on a bus. Thanks for your cooperation and support of efforts to keep our children as safe as possible.

Best regards,

Ana Yeomans
