INDEPENDENT AUDITOR'S REPORT

October 13, 2017

To the Board of Education of
East Greenbush Central School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of East Greenbush Central School District (School District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(Continued)

INDEPENDENT AUDITOR'S REPORT (Continued)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of East Greenbush Central School District as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedules of funding progress, local government contributions, and local government's proportionate share of the net pension liability (asset) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Other and Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's financial statements. The other information described in the table of contents, as required by the New York State Education Department, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The other information required by the New York State Education Department has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

(Continued)

**INDEPENDENT AUDITOR'S REPORT
(Continued)**

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2017, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

EAST GREENBUSH CENTRAL SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) FOR THE FISCAL YEAR ENDED JUNE 30, 2017

The following is a discussion and analysis of the East Greenbush Central School District's (District) financial performance for the fiscal year ended June 30, 2017. The section is a summary of the School District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the School District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- Government-wide net position of the School District was \$9,454,568.
- Government-wide net position was \$1,238,545 less than at July 1, 2016.
- The School District substantially continued to offer all programs, without reducing services, while maintaining fund balance within state mandated limits.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: Management's Discussion and Analysis (MD&A) (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the School District:

- The first two statements are *Government-wide* financial statements that provide both *short-term* and *long-term* information about the School District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the School District, reporting the School District's operations in *more detail* than the Government-wide statements.
- The *governmental funds statements* tell how basic services, such as special education, were financed in the *short-term*.
- *Fiduciary funds* statements provide information about the financial relationships in which the School District acts solely as a *trustee* or *agent* for the benefit of others.

The financial statements also include notes that provide additional information about the financial statements and the balances reported. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the School District's budget for the year.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Figure A-1 shows how the various sections of this annual report are arranged and related to one another.

Figure A-1 Organization of the School District's Annual Financial Report

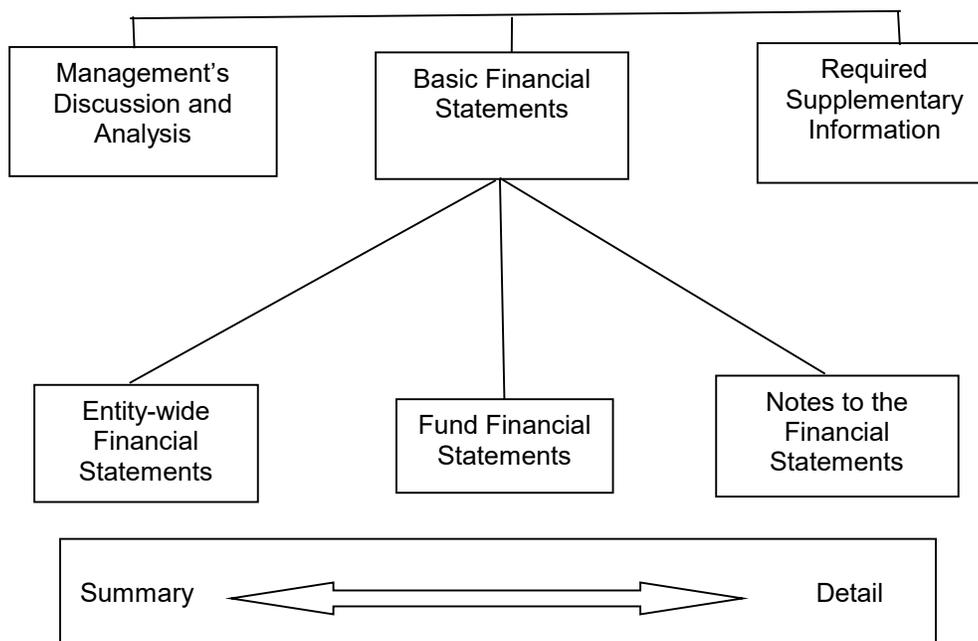

Figure A-2 summarizes the major features of the School District's financial statements, including the portion of the School District's activities that they cover and the types of information that they contain. The remainder of this overview section highlights the structure and contents of each statement.

Figure A-2 Major Features of the Government-Wide and Fund Financial Statements

	Government-Wide	Fund Financial Statements	
		Governmental Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The daily operating activities of the School District, such as instruction and special education.	District administers resources on behalf of someone else, such as scholarship programs and student activities monies.
Required financial statements	<ul style="list-style-type: none"> • Statement of net position • Statement of activities 	<ul style="list-style-type: none"> • Balance sheet • Statement of revenue, expenditures, and change in fund balance 	<ul style="list-style-type: none"> • Statement of fiduciary net position • Statement of change in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial focus.	Accrual accounting and economic resources focus.
Type of asset/liability, deferred outflows/inflows of resources information	All assets, liabilities, deferred outflows & inflows of resources both financial and capital, short-term and long-term debt.	Current assets and liabilities that come due during the year or soon after; no capital assets or long-term liabilities included.	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can.
Type of inflow/outflow information	All revenue and expenses during the year, regardless of when cash is received or paid.	Revenue for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable.	All additions and deductions during the year, regardless of when cash is received or paid.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Government-Wide Statements

The Government-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the School District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two Government-wide statements report the School District's *net position* and how they have changed. Net position – the difference between the School District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources – is one way to measure the School District's financial health or position.

- Over time, increases or decreases in the School District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- For assessment of the overall health of the School District, additional nonfinancial factors such as changes in the property tax bases and the condition of buildings and other facilities should be considered.

Net position of the governmental activities differ from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources, (dollars), are expended to purchase or build such assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. Principal and interest payments are considered expenditures when paid. Depreciation is not calculated. Capital assets and long-term debt are accounted for in account groups and do not affect the fund balances.

Government-wide statements use an economic resources measurement focus and full accrual basis of accounting that involves the following steps to prepare the statement of net position:

- Capitalize current outlays for capital assets.
- Report long-term debt as a liability.
- Depreciate capital assets and allocate the depreciation to the proper function.
- Calculate revenue and expenses using the economic resources measurement focus and the full accrual basis of accounting.
- Allocate net position balances as follows:
 - Net investment in capital assets.
 - Restricted net position has constraints placed on use by external sources or imposed by law.
 - Unrestricted net position is net position that does not meet any of the above restrictions.

Fund Financial Statements

The fund financial statements provide more detailed information about the School District's funds – not the School District as a whole. Funds are accounting devices the School District uses to keep track of specific sources of funding and spending on particular programs. The funds have been established by the State of New York.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Fund Financial Statements (Continued)

The School District has two kinds of funds:

- **Governmental Funds:** Most of the School District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. Because this information does not encompass the additional long-term focus of the Government-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them. The governmental fund statements focus primarily on current financial resources and often have a budgetary orientation. Governmental funds include the general fund, special aid fund, school lunch fund, debt service fund, and the capital projects fund. Required financial statements are the balance sheet and the statement of revenue, expenditures, and changes in fund balance.
- **Fiduciary Funds:** The School District is the trustee, or fiduciary, for assets that belong to others. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the Government-wide financial statements because it cannot use these assets to finance its operations. Fiduciary fund reporting focuses on net position and changes in net position.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

Figure A-3 Condensed Statement of Net Position (In Thousands of Dollars)

	Fiscal Year <u>2017</u>	Fiscal Year <u>2016</u>	Percent <u>Change</u>
Current and other assets	\$ 30,588	\$ 35,407	-13.61%
Noncurrent assets	<u>94,652</u>	<u>112,021</u>	-15.51%
Total assets	<u>\$ 125,240</u>	<u>\$ 147,428</u>	-15.05%
Deferred outflows of resources	<u>\$ 23,539</u>	<u>\$ 9,559</u>	146.25%
Current liabilities	\$ 23,717	\$ 28,535	-16.88%
Long-term liabilities	<u>114,430</u>	<u>109,873</u>	4.15%
Total liabilities	<u>\$ 138,147</u>	<u>\$ 138,408</u>	-0.19%
Deferred inflows of resources	<u>\$ 1,177</u>	<u>\$ 7,887</u>	-85.07%

Restricted	14,505	13,492	7.51%
Unrestricted	<u>(82,614)</u>	<u>(58,793)</u>	-40.52%
Total net position	<u>\$ 9,454</u>	<u>\$ 10,693</u>	-11.59%

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE (Continued)

In Figure A-3, total assets at June 30, 2017 decreased \$22 million, primarily due to the switch of the net pension asset of \$22.6 million for the teachers' retirement system as per GASB Statement Nos. 68 and 71 to a net pension liability.

Changes in Net Position

The School District's 2017 revenue was \$90,431,699 (See Figure A-4). Property taxes and New York State aid accounted for the majority of revenue by contributing 57% and 32%, respectively, of the total revenue raised (see Figure A-5). The remainder of revenue came from fees for services, use of money and property, operating grants, and other miscellaneous sources.

The total cost of all programs and services totaled \$91,670,244 for 2017. These expenses are predominately for the education, supervision, and transportation of students (see Figure A-6). The School District's administrative and business activities accounted for 13% of total costs.

Net position decreased during the year by \$1,238,545 due primarily to the effects of recognizing other post-employment benefits as well as the effects of ERS and TRS proportionate assets, deferred outflows, liabilities and deferred inflows.

Figure A-4 Changes in Net Position from Operating Results (In Thousands of Dollars)

	Fiscal Year 2017	Fiscal Year 2016	Percent Change
Revenue:			
Charges for services	\$ 1,927	\$ 1,681	14.63%
Operating grants	2,538	2,485	2.13%
General revenue:			
Property taxes	55,156	53,527	3.04%
State aid	28,818	29,016	-0.68%
Federal aid	525	355	47.89%
Interest earnings	324	342	-5.26%
Miscellaneous	1,143	1,928	-40.72%
Total revenue	<u>90,431</u>	<u>89,334</u>	1.23%
Expenses:			
General support	11,853	11,119	6.60%
Instruction	69,828	65,916	5.93%
Transportation	7,398	6,772	9.24%
Debt service - Interest	1,008	737	36.77%
Cost of sales - Food	1,583	1,522	4.01%
Total expenses	<u>91,670</u>	<u>86,066</u>	6.51%
Change in net position	<u>\$ (1,239)</u>	<u>\$ 3,268</u>	137.91%

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE (Continued)

Figure A-5: Revenue Sources for 2017:

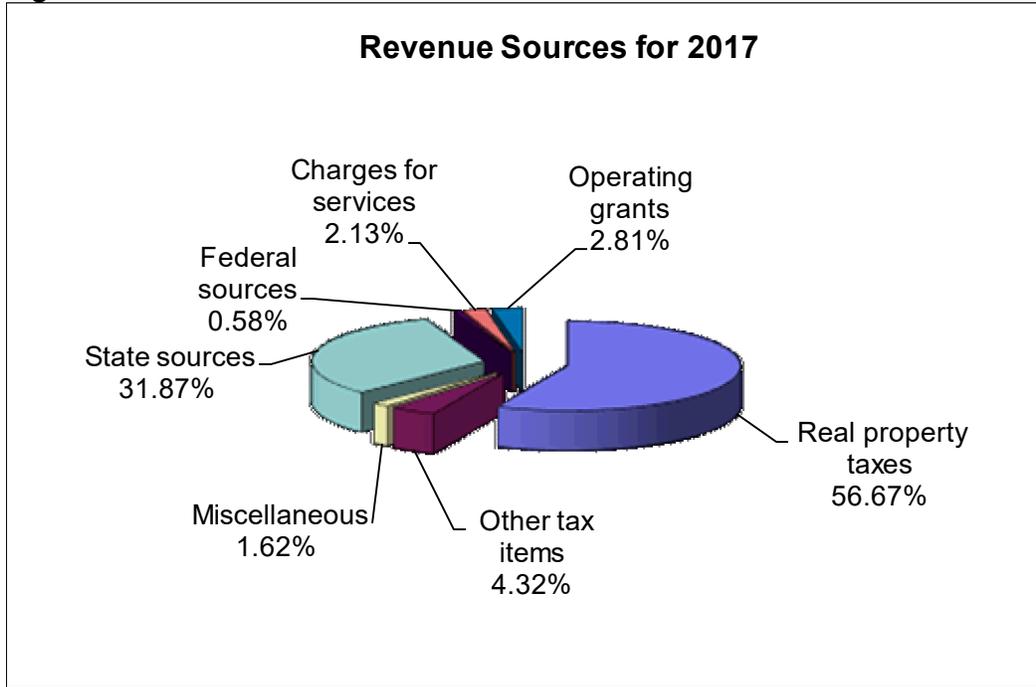

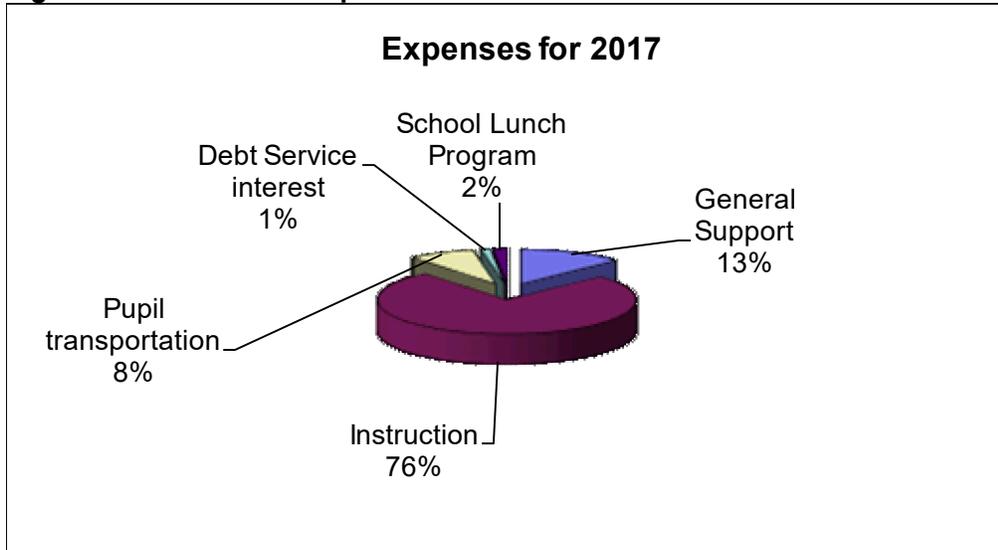

Figure A-6: Sources of Expenses for 2017:

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE (Continued)

Governmental Activities

Revenue for the School District's governmental activities totaled \$90,431,699 while total expenses were \$91,670,244. Accordingly, net position decreased by \$1,238,545.

Figure A-7 presents the cost of several of the School District's major activities. The figure also shows each activity's net cost (total cost less fees generated by the activity and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the School District's taxpayers by each of these functions.

Figure A-7 Net Cost of Governmental Activities (In Thousands of Dollars)

	Total Cost of Services <u>2017</u>	Net Cost of Services <u>2017</u>	Total Cost of Services <u>2016</u>	Net Cost of Services <u>2016</u>
General support	\$ 11,853	\$ 11,853	\$ 11,119	\$ 11,119
Instruction	69,828	66,608	65,916	62,971
Pupil transportation	7,398	7,398	6,772	6,772
Debt service - Interest	1,008	1,008	737	737
Cost of sales - Food	1,583	339	1,522	302
	<u>\$ 91,670</u>	<u>\$ 87,206</u>	<u>\$ 86,066</u>	<u>\$ 81,901</u>

- The cost of all governmental activities for the year was \$91,670,244.
- The users of the School District's programs financed \$1,927,376 of the costs through charges for services.
- The federal and state government financed \$2,537,579 of the costs through operating grants.
- The majority of costs were financed by the School District's taxpayers and unallocated NYS aid.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

Variances between years for the governmental fund financial statements are not the same as variances between years for the government-wide financial statements. The School District's governmental funds are presented on the current financial resources measurement focus and the modified accrual basis of accounting. Under this method of presentation, governmental funds do not include long-term liabilities for the funds' projects and capital assets purchased by the funds. Governmental funds will include proceeds from the issuance of debt, the current payments for capital assets, and the current payments for debt.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (Continued)

Governmental Funds Highlights

General Fund – New York State operating aid is tied to the growth in New York State personal income and the available funds in the state budget. The School District continues to maximize revenues by claiming refunds and billing for services.

Special Aid Fund – Federal aid is expected to decrease or remain flat in upcoming years.

School Lunch Fund – The General Fund continues to subsidize expenditures of the School Lunch Fund through operating transfers. Without a transfer in 2016-17, the School Lunch Fund would have sustained an \$112,000 operating loss.

Capital Projects Fund – Expenditures in the Capital Projects Fund were mostly related to the 2014 \$25 million project and asbestos and vermiculite abatement.

Debt Service Fund – The principal and interest payments for all bond issues are recorded in the Debt Service Fund.

General Fund Budgetary Highlights

This section presents an analysis of significant variances between original and final budget amounts and between final budget amounts and actual results for the general fund.

Revenue Variances

Revenues are greater than budgeted primarily due to increased BOCES aid.

Expenditure Variances

The School District continues to experience savings due to the energy program. The School District also experienced favorable results with health insurance premium renewals.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (Continued)

Results vs. Budget (In Thousands of Dollars)

	Original Budget	Final Budget	Actual	Encumbrances	Variance (Actual/Budget)
Revenue:					
Local sources	\$ 56,813	\$ 56,851	\$ 57,738	\$ -	\$ 887
State sources	27,901	27,910	28,818	-	908
Federal sources	288	288	525	-	237
Total	<u>85,002</u>	<u>85,049</u>	<u>87,081</u>	<u>-</u>	<u>2,032</u>
Expenditures:					
General support	8,853	9,152	8,248	98	807
Instruction	43,033	43,184	39,652	130	3,402
Transportation	4,949	5,882	5,358	-	524
Employee benefits	25,903	24,263	23,010	-	1,253
Debt service	2,103	3,277	3,277	-	0
Transfers out	5,291	5,304	5,304	-	0
Total	<u>90,133</u>	<u>91,063</u>	<u>84,848</u>	<u>228</u>	<u>5,987</u>
Revenue over (under) expenditures	<u>\$ (5,131)</u>	<u>\$ (6,014)</u>	<u>\$ 2,233</u>	<u>\$ (228)</u>	<u>\$ 8,019</u>

The general fund is the only fund for which a budget is legally adopted.

CAPITAL ASSET AND DEBT ADMINISTRATION

As of June 30, 2017, the School District had \$94,652,374 invested in buildings, computers, and other educational equipment.

Figure A-8 Capital Assets (In Thousands of Dollars), net of accumulated depreciation

	Fiscal Year <u>2017</u>	Fiscal Year <u>2016</u>
Land	\$ 101	\$ 101
Buildings and improvements	54,980	56,762
Construction in progress	36,732	31,500
Equipment and furniture	2,839	2,549
Total	<u>\$ 94,652</u>	<u>\$ 90,912</u>

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (Continued)
Long-Term Debt

As of June 30, 2017, the School District had \$118,849,795 in long-term debt. Detailed information about the School District's long-term debt is included in the notes to the financial statements.

Figure A-9 Outstanding Long-Term Debt (In Thousands of Dollars)

	Fiscal Year <u>2017</u>	Fiscal Year <u>2016</u>
General obligation bonds (financed with property taxes)	\$ 18,415	\$ 22,685
Other long-term debt	<u>100,435</u>	<u>86,180</u>
Total	<u>\$ 118,850</u>	<u>\$ 108,865</u>

During 2017, the School District paid down its debt by \$4,270,000. The variance in other long term debt reflects the recording of an additional \$8.7 million accrual for other post-employment benefits and an additional \$5.0 million in net pension liabilities.

FACTORS BEARING ON THE SCHOOL DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the School District was aware of the following existing circumstances which could significantly affect its financial position in the future:

The School District is heavily dependent on state aid to fund expenditures. Future adjustments to State Aid are dependent on actions of the Governor and Legislature.

The Property Tax Levy Cap, Chapter 97 of the Laws of 2011, continues to limit the School District's ability to raise tax revenue to meet future operating expenditures.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the School District's citizens, taxpayers, customers, investors, and creditors with a general overview of the School District's finances and to demonstrate the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact:

EAST GREENBUSH CENTRAL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2017

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

East Greenbush Central School District provides K-12 public education to students living within its geographic borders.

The financial statements of East Greenbush Central School District (School District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board, (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Significant accounting principles and policies utilized by the School District are described below:

Reporting Entity

East Greenbush Central School District is governed by the laws of New York State. The School District is an independent entity governed by an elected Board of Education. The President of the Board of Education serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the School District. The Board of Education has the authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the School District is based upon criteria set forth by generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the School District. The School District is not a component unit of another reporting entity. The decision to include a potential component unit in the School District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief description of an entity included in the School District's reporting entity:

Extraclassroom Activity Funds

The extraclassroom activity funds of the School District represent funds of the students of the School District. The Board of Education exercises general oversight of these funds. The extraclassroom activity funds are independent of the School District with respect to its financial transactions and the designation of student management. Separate audited financial statements, (cash basis) of the extraclassroom activity funds can be found at the School District's business office. The School District accounts for assets held as an agent for various student organizations in an agency fund.

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Joint Venture

The School District is a component school district in Questar III, a Board of Cooperative Education Services (BOCES). BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES board is considered a corporate body. Members of a BOCES board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES board as a corporation (§1950(6)). In addition, BOCES boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n (a) of the New York State General Municipal Law.

BOCES' budget is comprised of separate budgets for administrative, program, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component school districts pay tuition or a service fee for programs in which its students participate.

Financial statements for the BOCES are available from the BOCES administrative office.

Basis of Presentation

Government-Wide Statements

The statement of net position and the statement of activities present financial information about the School District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenue, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital), grants, while the capital grants column reflects capital-specific grants.

The statement of activities presents a comparison between program expenses and revenue for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenue include charges paid by the recipients of goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue.

Fund Financial Statements

The School District uses funds to maintain its accounting records. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

The fund statements provide information about the School District's funds, including fiduciary funds.

Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

The accounts of the School District are organized into funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenue, and expenditures. The various funds are summarized by type in the financial statements. Significant transactions between funds within a fund type have been eliminated. The fund types used by the School District are as follows:

Governmental Fund Types

Governmental funds are those in which most governmental functions of the School District are reported. The acquisition, use, and balances of the School District's expendable financial resources and the related liabilities (except those accounted for in the proprietary and fiduciary funds) are accounted for through the governmental funds. The measurement focus is upon determination of changes in financial position rather than upon determination of net income. The following are the School District's governmental fund types:

General Fund: This is the School District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

Special Revenue Funds: These funds account for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes, school lunch operations, and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties. The School District uses two special revenue type funds – special aid and school lunch.

Capital Projects Fund: This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

Debt Service Fund: This fund is used to account for and report on the accumulation of resources to be used for redemption of general long-term indebtedness.

Fiduciary Fund Types

Fiduciary funds are used to account for assets held by the School District as an agency for individuals, private organizations, other governmental units, and/or other funds. These activities are not included in the Government-wide financial statements, because their resources do not belong to the School District and are not available to be used.

The School District utilizes the following fiduciary fund:

Agency funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the School District as agent for various student groups or extraclassroom activity funds and for payroll or employee withholdings.

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenue and expenditures during the reporting period. Actual results could differ from those estimates.

Measurement Focus and Basis of Accounting

Measurement focus refers to what is being measured, whereas basis of accounting refers to when revenues and expenditures are recognized. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The Government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions in which the School District gives or receives value without directly receiving or giving equal value in exchange include property taxes, grants, and donations.

On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The School District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Cash and Cash Equivalents

The School District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

New York State law governs the School District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the state. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and districts.

Accounts Receivable

Accounts receivable are shown gross. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

**1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(Continued)**

Inventories and Prepaid Items

Inventories of food in the school lunch fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the School District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the Government-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

Interfund Transactions

The operations of the School District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The School District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenue to provide financing or other services.

In the Government-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the School District's practice to settle these amounts at a net balance based upon the right of legal offset.

Capital Assets, Net

Capital assets are reported at actual cost for acquisitions subsequent to July 1, 2002. For assets acquired prior to July 1, 2002, estimated historical costs, based on appraisals conducted by independent third-party professionals were used. Donated assets are reported at estimated fair value at the time received.

Capitalization thresholds, (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the Government-wide statements are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Land	\$ 1,000	N/A	N/A
Land improvements	20,000	SL	30-50
Buildings and improvements	20,000	SL	30-50
Furniture and equipment	1,000	SL	5
Buses	10,000	SL	8

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property Taxes

Real property taxes are levied annually by the board of education no later than September 1, and become a lien on September 1. Taxes are collected during the period September 1 to October 31.

Uncollected real property taxes are subsequently enforced by the County of Rensselaer in which the School District is located. The County pays an amount representing uncollected real property taxes transmitted to the County for enforcement to the School District no later than the following April 1.

Vested Employee Benefits

Compensated absences

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation, or death, employees may receive a payment based on unused accumulated sick leave, based on contractual provisions.

District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

The liability for compensated absences has been calculated using the vesting/termination method and an accrual for that liability is included in the government-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

In the funds statements only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.

Other Benefits

District employees participate in the New York State Employees' Retirement System or the New York State Teachers' Retirement System.

Other Postemployment Benefits

In addition to providing the pension benefits described, the School District provides postemployment health insurance coverage to its retired employees and their survivors in accordance with the provisions of the employment contracts negotiated between the School District and its employee groups. Substantially all of these employees may become eligible for these benefits if they reach normal retirement age while working for the School District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The School District pays a variable percentage of the cost of premiums to an insurance company that provides health care insurance. At the fund level the School District recognizes the cost of providing health care insurance by recording its share of insurance premiums as an expenditure or operating transfer to other funds in the general fund in the year paid. The School District recognized the current cost of providing benefits for 2017 by recording \$4,364,455, which is its share of insurance premiums for approximately 512 currently enrolled retirees, as an expenditure in 2017.

The School District has recorded in the government-wide statement of net position other postemployment benefits totaling \$88,059,146 as of June 30, 2017.

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Unearned Revenue

Unearned revenue is reported when potential revenue meets both the measurable and available criteria for recognition in the current period. Unearned revenue also arises when resources are received by the School District before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the School District has legal claim to the resources, the liability for unearned revenue is removed and revenue is recorded.

Statute provides the authority for the School District to levy taxes to be used to finance expenditures within the first 120 days of the succeeding fiscal year. Consequently, such amounts are recognized as revenue in the subsequent fiscal year rather than when measurable and available.

Unearned revenue recorded in governmental funds is generally not recorded in the Government-wide statements.

Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities, and long-term obligations are reported in the Government-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources.

Claims and judgments, and compensated absences that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the School District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the School District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these notes.

Fund Balance/Net Position Classifications

Government-Wide Statements

In the Government-wide statements, there are three classes of net position:

Net investment in capital assets - consists of net capital assets, (cost less accumulated depreciation) plus unspent bond proceeds reduced by outstanding balances of related debt obligations from the acquisition, construction, or improvements of those assets.

Restricted net position - reports net position when constraints placed on the assets are either externally imposed by creditors, (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted net position consists of the nonspendable and restricted fund balance categories on the Fund financial statements.

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance/Net Position Classifications (Continued)

Government-wide Statements (Continued)

Unrestricted net position - reports all other net position that do not meet the definition of the above two classifications and are deemed to be available for general use by the School District.

Governmental Fund Statements

In the fund basis statements there are five classifications of fund balance:

Nonspendable fund balance – Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually are required to be maintained intact. Non-spendable fund balance includes the inventory recorded in the school lunch fund and prepaid expenditures in the general fund.

Restricted fund balance – Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. The School District has available the following restricted fund balances:

Capital

Capital reserve (Education Law §3651) is used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term, and the source of the funds. Expenditures may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. This reserve is accounted for in the general fund under restricted fund balance.

Repair

Repair reserve (GML §6-d) is used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The board of education, without voter approval, may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve, (opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the general fund under restricted fund balance.

Workers' Compensation

Workers' compensation reserve (GML §6-j) is used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. The reserve is accounted for in the general fund under restricted fund balance.

1. **NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(Continued)**

Fund Balance/Net Position Classifications (Continued)

Governmental Fund Statements (Continued)

Unemployment Insurance

Unemployment insurance reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the School District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. This reserve is accounted for in the general fund under restricted fund balance.

Debt Service

Mandatory reserve for debt service (GML §6-l) is used to establish a reserve for the purpose of retiring the outstanding obligations upon the sale of School District property or capital improvement that was financed by obligations which remain outstanding at the time of sale. The funding of the reserve is from the proceeds of the sale of School District property or capital improvement. The reserve is accounted for in the debt service fund under restricted fund balance.

Insurance

Insurance reserve is used to pay liability, casualty, and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value, and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law, (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriations, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the insurance reserve; however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval. The reserve is accounted for in the general fund under restricted fund balance.

Liability Claims and Property Loss

Liability claims and property loss reserve, (Education Law §1709(8) (c), are used to pay for property loss and liability claims incurred. Separate funds for property loss and liability claims are required, and these reserves may not in total exceed 3% of the annual budget or \$15,000, whichever is greater. This type of reserve fund may be utilized only by school districts, except city school districts with a population greater than 125,000. These reserves are accounted for in the general fund under restricted fund balance.

Tax Certiorari

Tax certiorari reserve, (Education Law §3651.1-a), is used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount which might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the general fund on or before the first day of the fourth fiscal year after deposit of these monies. The reserve is accounted for in the general fund under restricted fund balance.

1. **NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**
(Continued)

Fund Balance/Net Position Classifications (Continued)

Governmental Fund Statements (Continued)

Employee Benefit Accrued Liability

Reserve for employee benefit accrued liability (GML §6-p) is used to reserve funds for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. The reserve is accounted for in the general fund under restricted fund balance.

Retirement Contribution

Retirement Contribution Reserve (GML §6-r) is used for the purpose of financing retirement contributions. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the board. This reserve is accounted for in the general fund under restricted fund balance.

Committed fund balance – Includes amounts that can be used for the specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making authority, i.e., the Board of Education. The School District has no committed fund balances as of June 30, 2017.

Assigned fund balance – Includes amounts that are constrained by the School District's intent to be used for specific purposes, but are neither restricted nor committed. All encumbrances of the general fund are classified as assigned fund balance in the general fund. Encumbrances reported in the general fund amounted to \$228,361. As of June 30, 2017, the School District's encumbrances were classified as follows:

General support	\$	97,888
Instruction		<u>130,473</u>
Total encumbrances	\$	<u>228,361</u>

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments of expenditures are recorded for budgetary control purposes in order to reserve applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances are reported as restricted fund balance in all funds other than the general fund, since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year.

Unassigned fund balance - Includes all other general fund amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the School District.

New York State Real Property Tax Law §1318 limits the amount of unexpended surplus funds the School District can retain to no more than 4% of the School District's budget for the general fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the general fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

1. **NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Fund Balance/Net Position Classifications (Continued)

Governmental Fund Statements (Continued)

Order of Fund Balance Spending Policy

The School District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year. For all funds, nonspendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the general fund are classified as assigned fund balance. In the general fund, committed fund balance is determined next and then assigned. The remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

Adoption of New Relevant Accounting Standard

As disclosed in Note 13, the School District has adopted and implemented the Governmental Accounting Standards Board (GASB) Statement No. 77, *Tax Abatement Disclosures* for its year ended June 30, 2017

2. **EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND GOVERNMENT-WIDE STATEMENTS**

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the Government-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the statement of activities compared with the current financial resources focus of the governmental funds.

Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities

Total fund balances of the School District's governmental funds differ from "net position" of governmental activities reported in the statement of net position. This difference primarily results from the additional long-term economic focus of the statement of net position versus the solely current financial resources focus of the governmental fund balance sheets. Differences between the governmental funds statement of revenue, expenditures, and changes in fund balance and the statement of activities fall into one of three broad categories.

Long-Term Revenue and Expense Differences

Long-term revenue differences arise because governmental funds report revenue only when it is considered available, whereas the statement of activities reports revenue when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the statement of activities.

Capital Related Differences

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the statement of activities.

2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND GOVERNMENT-WIDE STATEMENTS (Continued)

Statement of Revenue, Expenditures, and Change in Fund Balance vs. Statement of Activities

Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the statement of activities as incurred, and principal payments are recorded as a reduction of liabilities in the statement of net position.

3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets

The School District's administration prepares a proposed budget for approval by the Board of Education for the following governmental funds for which legal (appropriated) budgets are adopted:

The voters of the School District approved the proposed appropriations budget for the General Fund.

Appropriations are adopted at the program line item level.

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year.

Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. No supplemental appropriations occurred during the year.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the School District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

Fund Balance

Portions of fund balances are restricted and not available for current expenditures, as reported in the governmental funds' balance sheet.

3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

Fund Deficit

The Capital Projects Fund has a fund deficit at year end that is attributed to the utilization of short term financing to complete various capital projects. This deficit will be eliminated over the next few years as the projects are completed and the short term financing is converted to long term bonds.

The School Lunch Fund deficit will be eliminated in future years through improved operational results and/or transfers from general fund.

4. CASH

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. While the School District does not have a specific policy for custodial credit risk, New York State statutes govern the School District's investment policies, as discussed previously in these Notes.

The School District's aggregate bank balances (disclosed in the financial statements), included balances not covered by depository insurance at year-end, collateralized as follows:

	<u>Bank Balance</u>	<u>Carrying Amount</u>
Cash, including trust funds	\$ 30,252,395	\$ 29,572,024
Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name	\$ 30,002,395	
Covered by FDIC insurance	<u>250,000</u>	
Total	<u>\$ 30,252,395</u>	

Restricted cash represents cash where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes.

Restricted cash consists of the following:

General fund:

Workers' compensation	\$ 700,000
Retirement contributions	6,235,432
Employee benefits accrued liabilities	3,441,853
Capital Projects	667,244
Tax certiorari	859,422
Unemployment	<u>240,000</u>
	<u>\$ 12,143,951</u>

Trust & Agency fund:

Cash on deposit for extraclassroom activity funds	<u>\$ 178,715</u>
---	-------------------

5. PARTICIPATION IN BOCES

During the year, the School District was billed \$4,071,272 for BOCES administrative and program costs. The School District's share of BOCES aid amounted to \$1,623,907.

6. CAPITAL ASSETS, NET

Capital asset balances and activity for the year ended June 30, 2017, were as follows:

	Beginning <u>Balance</u>	<u>Additions</u>	Retirements/ <u>Reclassifications</u>	Ending <u>Balance</u>
Governmental activities:				
Capital assets that are not depreciated:				
Land	\$ 100,510	\$ -	\$ -	\$ 100,510
Construction in progress	<u>31,499,933</u>	<u>5,232,470</u>	<u>-</u>	<u>36,732,403</u>
Total non-depreciable cost	<u>31,600,443</u>	<u>5,232,470</u>	<u>-</u>	<u>36,832,913</u>
Capital assets that are depreciated:				
Land improvements	2,809,859	-	-	2,809,859
Buildings and improvements	102,977,310	-	-	102,977,310
Furniture and equipment	<u>15,474,045</u>	<u>1,293,128</u>	<u>1,279,821</u>	<u>15,487,352</u>
Total depreciable historical cost	<u>121,261,214</u>	<u>1,293,128</u>	<u>1,279,821</u>	<u>121,274,521</u>
Less accumulated depreciation:				
Land improvements	2,809,859	-	-	2,809,859
Buildings and improvements	46,215,411	1,781,877	-	47,997,288
Furniture and equipment	<u>12,924,856</u>	<u>994,923</u>	<u>1,271,866</u>	<u>12,647,913</u>
Total accumulated depreciation	<u>61,950,126</u>	<u>2,776,800</u>	<u>1,271,866</u>	<u>63,455,060</u>
Total capital assets, net	<u>\$ 90,911,531</u>	<u>\$ 3,748,798</u>	<u>\$ 7,955</u>	<u>\$ 94,652,374</u>

Depreciation expense for the year ended June 30, 2017, was allocated to specific functions as follows:

General support	\$ 617,636
Instruction	1,829,836
Pupil transportation	273,774
School lunch program	<u>55,554</u>
Total	<u>\$ 2,776,800</u>

7. SHORT-TERM DEBT

The School District may issue Revenue Anticipation Notes (RANs) and Tax Anticipation Notes (TANs), in anticipation of the receipt of revenue. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

7. SHORT-TERM DEBT (Continued)

The School District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any fiscal year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of the second fiscal year succeeding the year in which the note was issued.

The School District may issue Bond Anticipation Notes (BANs), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date.

At June 30, 2017, the School District had the following BANs outstanding:

<u>Maturity</u>	<u>Interest Rate</u>	<u>Beginning Balance</u>	<u>Issued</u>	<u>Principal Paid</u>	<u>Redeemed from new BANs</u>	<u>Ending Balance</u>
February 9, 2018	2.00%	\$ -	\$ 13,535,000	\$ -	\$ -	\$ 13,535,000
November 18, 2016	2.00%	1,705,367	-	1,705,367	-	-
February 10, 2017	2.00%	2,500,000	-	1,250,000	1,250,000	-
February 10, 2017	2.00%	12,500,000	-	215,000	12,285,000	-
		<u>\$ 16,705,367</u>	<u>\$ 13,535,000</u>	<u>\$ 3,170,367</u>	<u>\$ 13,535,000</u>	<u>\$ 13,535,000</u>

8. LONG-TERM DEBT

Interest on long-term debt for the year was composed of:

Interest paid	\$ 990,909
Less: interest accrued in the prior year	(259,270)
Plus: interest accrued in the current year	<u>276,549</u>
Total expense	<u>\$ 1,008,188</u>

Long-term liability balances and activity for the year are summarized below:

	<u>June 30, 2016 Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>June 30, 2017 Balance</u>	<u>Amounts Due Within One Year</u>	<u>Long-term Portion</u>
Government activities:						
Bonds and notes payable						
General obligation debt:						
Serial bonds	\$ 22,685,000	-	\$ 4,270,000	\$ 18,415,000	\$ 4,420,000	\$ 13,995,000
Other long-term debt:						
Compensated absences	6,774,230	430,323	-	(A) 7,204,553	-	7,204,553
Net pension liability	5,277,704	-	106,608	5,171,096	-	5,171,096
Other postemployment benefits	<u>79,405,753</u>	<u>13,408,956</u>	<u>4,755,563</u>	<u>88,059,146</u>	-	<u>88,059,146</u>
Total long-term liabilities	<u>\$ 114,142,687</u>	<u>\$ 13,839,279</u>	<u>\$ 9,132,171</u>	<u>\$ 118,849,795</u>	<u>\$ 4,420,000</u>	<u>\$ 114,429,795</u>

(A) Additions and deletions to compensated absences are shown net because it is impractical to determine these amounts separately.

8. LONG-TERM DEBT (Continued)

In prior years, the School District defeased certain general obligations and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the School District's financial statements.

Issue dates, maturities, and interest rates on outstanding debt are as follows:

<u>Bond Issue</u>	<u>Issued</u>	<u>Maturity</u>	<u>Interest Rate</u>	June 30, 2017 <u>Balance</u>
Building improvements	2010	2022	2.25-3.75%	7,795,000
Refunding bond	2012	2025	2.00-4.00%	4,605,000
Refunding bond	2016	2030	2.00-2.50%	6,015,000
				<u>\$ 18,415,000</u>

The following is a summary of the maturity of bonds payable:

<u>Fiscal Year</u> <u>Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 4,420,000	\$ 514,856	\$ 4,934,856
2019	4,585,000	347,544	4,932,544
2020	1,200,000	246,944	1,446,944
2021	1,230,000	215,522	1,445,522
2022	1,260,000	182,813	1,442,813
2023-2027	4,205,000	462,338	4,667,338
2028-2030	<u>1,515,000</u>	<u>75,013</u>	<u>1,590,013</u>
Totals	<u>\$ 18,415,000</u>	<u>\$ 2,045,030</u>	<u>\$ 20,460,030</u>

9. INTERFUND BALANCES AND ACTIVITY

Interfund receivables and payables, other than between governmental activities and fiduciary funds, are eliminated on the statement of net position.

The School District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues.

The following is a summary of interfund activity:

	<u>Interfund</u>		<u>Interfund</u>	
	<u>Receivable</u>	<u>Payable</u>	<u>Revenue</u>	<u>Expenditures</u>
General fund	\$ 18,378,646	\$ 4,649,566	\$ -	\$ 5,304,449
Special aid fund	587,981	2,128,733	163,247	-
School lunch fund	102,447	180,734	200,000	-
Debt Service	2,730,272	485,292	4,941,202	-
Capital fund	636,665	14,815,180	-	-
Fiduciary funds	-	176,506	-	-
Totals	<u>\$ 22,436,011</u>	<u>\$ 22,436,011</u>	<u>\$ 5,304,449</u>	<u>\$ 5,304,449</u>

All interfund payables are expected to be repaid within one year.

10. PENSION PLANS

New York State Employees' Retirement System

The School District participates in the New York State and Local Employee's Retirement System (ERS) also referred to as New York State and Local Retirement System (the System). This is a cost-sharing multiple-employer retirement system, providing retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), established to hold all net assets and record changes in plan net position allocated to the System. System benefits are established under the provisions of the New York Retirement and Social Security Law (RSSL). Once an employer elects to participate in the System, the election is irrevocable.

The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The School District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The system is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

Contributions

The system is noncontributory except for employees who joined the New York State and Local Employees' Retirement System after July 27th, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 (ERS) who generally contribute 3 percent of their salary for their entire length of service. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. Contributions for the current year and two preceding years were equal to 100 percent of the contributions required, and were as follows:

	<u>ERS</u>
2017	\$ 1,429,487
2016	1,507,558
2015	1,820,566

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2017, the School District reported a net pension liability of \$3,034,174 for its proportionate share of the ERS net pension liability. The net pension liability was measured as of March 31, 2017, and the total pension liability used to calculate the net pension liability was determined by the actuarial valuation as of that date. The School District's proportion of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2017 and 2016, the School District's proportion was .032291% and .032882%, respectively, which were measured at March 31, 2017 and 2016, respectively.

10. PENSION PLANS (Continued)

New York State Employees' Retirement System (Continued)

For the year ended June 30, 2017, the School District recognized pension expense of \$1,805,809. At June 30, 2017, the School District reported deferred outflows/inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 76,034	\$ 460,756
Changes of Assumptions	1,036,585	-
Net difference between projected and actual earnings on pension plan investments	606,047	-
Changes in proportion and differences between the District's contributions and proportionate share of contributions	279,721	19,238
Contributions subsequent to the measurement date	436,000	-
Total	<u>\$ 2,434,387</u>	<u>\$ 479,994</u>

The School District recognized \$436,000 as deferral outflow of resources related to pensions resulting from contributions made subsequent to the measurement date of March 31, 2017 which will be recognized on a reduction of the net pension liability in the year ending June 30, 2018.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Plan's Year Ending March 31,	2018	\$ 668,362
	2019	668,362
	2020	563,065
	2021	(381,396)
		<u>\$ 1,518,393</u>

Actuarial Assumptions

The total pension liability at March 31, 2017 was determined by using an actuarial valuation as of April 1, 2016, with update procedures used to roll forward the total pension liability to March 31, 2017. The actuarial valuation used the following actuarial assumptions:

Actuarial cost method	Entry age normal
Inflation	2.5%
Salary Scale	3.8 % indexed by service
Projected COLAs	1.3% compounded annually
Decrements	Developed from the Plan's 2015 experience study of the period April 1, 2010 through March 31, 2015
Mortality improvement	Society of Actuaries Scale MP-2014
Investment rate of return	7% compounded annually, net of investment expenses,

10. PENSION PLANS (Continued)

New York State Employees' Retirement System (Continued)

Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The allocation and best estimates of arithmetic real rates of return for each major asset class as of March 31, 2017 are summarized below:

<u>Asset Type</u>	<u>Target Allocations in %</u>	<u>Long-Term expected real rate of return in %</u>
Domestic Equity	36.0	4.55
International Equity	14.0	6.35
Private Equity	10.0	7.75
Real Estate	10.0	5.80
Absolute Return	2.0	4.00
Opportunistic Portfolio	3.0	5.89
Real Asset	3.0	5.54
Bonds, Cash & Mortgages	17.0	1.31
Cash	1.0	(0.25)
Inflation Indexed Bonds	4.0	1.5
	<u>100%</u>	

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

Discount Rate

The discount rate used to calculate the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

10. PENSION PLANS (Continued)

New York State Employees' Retirement System (Continued)

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption (Continued)

Discount Rate (Continued)

The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.0 %, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 % lower (6.0%) or 1 % higher (8.0%) than the current rate:

	1% Increase (6.0%)	Current Discount (7.0%)	1% Increase (8.0%)
Employer's Proportionate Share of Net Pension Liability (Asset)	\$ 9,690,550	\$ 3,034,174	\$ (2,593,780)

Pension Plan Fiduciary Net Position

The components of the current-year net pension liability of the employers as of March 31, 2017, was as follows:

	Pension Plan's Fiduciary Net Position	District's Proportionate Share of Plan's Fiduciary Net Position	District's Allocation % determined by the Plan
Total pension liability	\$ 177,400,586,000	\$ 57,285,133	0.0322914%
Net position	(168,004,363,000)	(54,250,959)	0.0322914%
Net pension liability (asset)	<u>\$ 9,396,223,000</u>	<u>\$ 3,034,174</u>	0.0322914%
ERS net position as a percentage of total pension liability	94.70%	94.70%	

New York State Teachers' Retirement System

The School District participates in the New York State Teachers' Retirement System (NYSTRS). This is a cost-sharing, multiple employer public employee retirement system. The system offers a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death, and disability.

The New York State Teachers' Retirement Board administers NYSTRS. The system provides benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. NYSTRS issues a publicly available financial report that contains financial statements and required supplementary information for the system. The report may be obtained by writing to NYSTRS, 10 Corporate Woods Drive, Albany, New York 12211-2395.

Contributions

The System is noncontributory for the employees who joined prior to July 27, 1976. For employees who joined the System after July 27, 1976, and prior to January 1, 2010, employees contribute 3% of their salary, except that employees in the System more than ten years are no longer required to contribute. For employees who joined after January 1, 2010 and prior to April 1, 2012, contributions of 3.5% are paid throughout their active membership.

For employees who joined after April 1, 2012, required contributions of 3.5% of their salary are paid until April 1, 2013 and they then contribute 3% to 6% of their salary throughout their active membership. Pursuant to Article 11 of the Education Law, the New York State Teachers' Retirement Board establishes rates annually for NYSTRS.

10. PENSION PLANS (Continued)

New York State Teachers' Retirement System (Continued)

Contributions (Continued)

The School District is required to contribute at an actuarially determined rate. The School District contributions made to the systems were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding years were:

	<u>TRS</u>
2017	\$ 3,785,116
2016	4,196,371
2015	5,299,196

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2017, the School District reported net pension liability of \$2,136,922 for its proportionate share of the NYSTRS net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension asset was determined by the actuarial valuation as of that date. The School District's proportion of the net pension asset was based on a projection of the School Districts' long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2017 and 2016, the School District's proportionate share was 0.199518% and 0.203232%, respectively, which were measured at June 30, 2016 and 2015, respectively.

For the year ended June 30, 2017, the School District recognized pension expense of \$3,509,074. At June 30, 2017 the School District reported deferred outflows/inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 694,192
Changes of Assumptions	12,173,268	
Net difference between projected and actual earnings on pension plan investments	4,804,924	
Changes in proportion and differences between the District's contributions and proportionate share of contributions	220,349	3,263
Contributions subsequent to the measurement date	<u>3,906,270</u>	<u>-</u>
Total	<u>\$ 21,104,811</u>	<u>\$ 697,455</u>

The School District recognized \$3,906,270 as a deferred outflow of resources related to pensions resulting from the School District's contributions subsequent to the measurement date of June 30, 2016, which will be recognized as a reduction of the net pension liability in the year ending June 30, 2018.

10. PENSION PLANS (Continued)

New York State Teachers' Retirement System (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized in pension expense as follows:

Plan's Year Ending June 30,	2017	\$	1,521,170
	2018		1,521,170
	2019		5,252,807
	2020		4,091,786
	2021		1,895,502
	Thereafter		2,218,651
		\$	<u>16,501,086</u>

Actuarial Assumptions

The total pension liability at the June 30, 2016 measurement date was determined by an actuarial valuation as of June 30, 2015, with update procedures used to roll forward the total pension liability to June 30, 2016. These actuarial valuation used the following actuarial assumptions:

Inflation	2.5%
Projected Salary Increases	Rates of increase differ based on service They have been calculated based upon recent NYSTRS member experience.

<u>Service</u>	<u>Rate</u>
5	4.72%
15	3.46%
25	2.37%
35	1.90%

Projected COLAs	1.5% compounded annually
Investment Rate of Return	7.5% compounded annually, net of pension plan investment expense, including inflation.

Annuitant mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP-2014.

The actuarial assumptions used in the June 30, 2015 valuation was based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2014.

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations*. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance.

10. PENSION PLANS (Continued)

New York State Teachers' Retirement System (Continued)

Actuarial Assumptions (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the Systems target asset allocation as of the valuation date of June 30, 2016 (see the discussion of the pension plan's investment policy) are summarized in the following table:

<u>Asset Type</u>	Target Allocations in %	Long-term expected real rate of return in %
Domestic Equity	37.0	6.1
International Equity	18.0	7.3
Real Estate	10.0	5.4
Private Equity	7.0	9.2
Domestic fixed Income Securities	17.0	1.0
Global Fixed Income Securities	2.0	0.8
Mortgages	8.0	3.1
Short-term Fixed Income	1.0	0.1
	<u>100%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.5 %. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from school districts will be made at statutorily required rates, actuarially determined. Based on those assumptions, the NYSTRS' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents the net pension liability (asset) of the school districts calculated using the discount rate of 7.5 percent, as well as what the school districts' net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	1% Decrease (6.5%)	Current Discount (7.5%)	1% Increase (8.5%)
Employer's Proportionate Share of Net Pension Liability (Asset)	\$ 27,881,004	\$ 2,136,922	\$ (19,455,865)

10. PENSION PLANS (Continued)

New York State Teachers' Retirement System (Continued)

Pension Plan Fiduciary Net Position

The components of the current year net pension liability of the employers as of June 30, 2016, were as follows:

	Pension Plan's Fiduciary Net Position	District's Proportionate Share of Plan's Fiduciary Net Position	District's Allocation % determined by the Plan
Total pension liability	\$ 108,577,184,039	\$ 216,631,026	0.199518%
Net position	(107,506,142,099)	(214,494,104)	0.199518%
Net pension liability (asset)	<u>\$ 1,071,041,940</u>	<u>\$ 2,136,922</u>	0.199518%
ERS net position as a percentage of total pension liability	99.01%	99.01%	

11. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The School District provides postemployment, (health insurance, life insurance, etc.), coverage to retired employees and their spouses in accordance with the provisions of various employment contracts. The benefit levels, employee contributions and employer contributions are governed by the School District's contractual agreements. This District is required to calculate and record a net other postemployment benefit (OPEB) obligation at year-end. The net OPEB obligation is basically the cumulative difference between the actuarially required contribution and the actual contributions made.

In general, the School District provides health insurance coverage for retired employees and their survivors. Substantially all the School District's employees may become eligible for this benefit if they reach age 55 and retire with at least 10 years of service to the School District.

The retirement Plan can be amended by action of the School District subject to applicable collective bargaining and employment agreements. The number of retired employees currently eligible to receive benefits at June 30, 2017 was approximately 500. The OPEB Plan does not issue a stand-alone financial report because there are no assets legally segregated for the sole purpose of paying benefits under the plan.

Funding Policy

The obligations of the OPEB Plan are established by action of the School District pursuant to applicable collective bargaining and employment agreements. The required premium contribution rates of retirees is 0% while the spouse is required to contribute 50% of the premium for their coverage. The School District will pay its portion of the premium for the spouse for the lifetime of the retiree. Upon the retiree's death, the spouse must contribute 100% of the cost of coverage. The School District currently contributes enough money to the OPEB Plan to satisfy current obligations on a pay-as-you-go basis to cover annual premiums. The School District paid \$4,364,455 for its retirees on the pay-as-you-go basis for the year ended June 30, 2017.

Annual OPEB Cost and Net OPEB Obligation

The School District's annual OPEB cost is calculated based on the annual required contribution of the employer, (ARC), an amount actuarially determined in accordance with generally accepted accounting principles. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year plus the amortization of the unfunded actuarial accrued liability over a period not to exceed 30 years.

11. OTHER POSTEMPLOYMENT BENEFITS (Continued)

The following table shows the components of the School District's annual OPEB cost for the year, the amount actually contributed to the Retirement Plan, and the changes in the School District's net OPEB obligation:

Annual required contribution	14,959,708
Interest on net OPEB obligation	2,382,173
Adjustment to ARC	<u>(3,932,925)</u>
Annual OPEB cost	13,408,956
Contributions made	<u>4,755,563</u>
Increase in net OPEB obligation	8,653,393
Net OPEB obligation - beginning of year	<u>79,405,753</u>
Net OPEB obligation - end of year	<u>\$ 88,059,146</u>
Percentage of annual OPEB cost contributed	-35%

Trend information – The School District's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation is as follows:

<u>Year Ended</u>	<u>OPEB Cost</u>	<u>Contribution (ARC)</u>	<u>OPEB Cost Contributed</u>	<u>% of ARC Contributed</u>	<u>OPEB Obligation</u>
6/30/2017	\$ 13,408,956	\$ 14,959,708	\$ 4,755,563	32%	\$ 88,059,146
6/30/2016	\$ 13,607,455	\$ 14,698,890	\$ 4,087,707	28%	\$ 79,405,753
6/30/2015	\$ 14,053,950	\$ 14,448,103	\$ 3,707,241	26%	\$ 69,886,005

Funded Status and Funding Progress

The projection of future benefits for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the OPEB Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The OPEB Plan is currently not funded.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan as understood by the employer and plan members and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

11. OTHER POSTEMPLOYMENT BENEFITS (Continued)

In the July 1, 2016 actuarial valuation, the following methods and assumptions were used:

Actuarial cost method	Entry Age Normal
Discount rate*	34.0%
Medical care cost trend rate	7.5% in 2016 and is reduced by .5% decrements to an ultimate rate of 4.5% in 2022.
Unfunded actuarial accrued liability:	
Amortization period	30 years
Amortization method	Level dollar
Amortization basis	Open

* As the plan is unfunded, the assumed discount rate considers that the School District's investment assets are low risk in nature, such as money market funds or certificates of deposit.

12. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

The School District does not purchase insurance for the risk of losses for unemployment and workers' compensation claims. Instead, the School District manages its risks for these losses internally and accounts for these in the School District's general fund, including provisions for unexpected and unusual claims.

Claims are recognized as expenditures when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated. At June 30, 2017, management estimates there are no outstanding claims liabilities.

13. TAX ABATEMENTS

All real property in New York State is subject to taxation unless specific legal provision grant it exempt status. Real property exemptions are granted on the basis of many different criteria, including the use to which the property is put, the owner's ability to pay taxes, the desire of the state and local governments to encourage certain economic or social activities, and other considerations. Most exemptions are granted under Article 4 of the Real Property Tax Law, but others are authorized by a wide variety of statutes ranging from Article 18-A of the Real Property Tax Law, the Agriculture and Markets Law and the Transportation Law. Certain exemptions provide full relief from taxation (wholly exempt property) and others reduce the taxes which would otherwise be payable by varying degrees (partially exempt property). Some exemptions apply to taxes levied for county, city/town, and school purposes, whereas other pertain only to certain of these purposes. Some tax exemptions are mandated by State law, others are subject to local option and/or local determination of eligibility criteria.

The School District has 28 real property tax abatement agreement that are entered into by the Rensselaer County Industrial Development Agency (IDA) and one real property tax abatement agreement that are entered into by the Village of Nassau. These agreement provide for abatement of real property taxes in exchange for payment in lieu of taxes (PILOT) in accordance with the IDA's or the Village's Tax Exemption Policy.

13. TAX ABATEMENTS (Continued)

PILOTs are granted in accordance with various activities such as new affordable housing construction, purchase of an existing facility, development of a new facility, or the improvement or expansion of an existing facility to promote job creation or retention. There are no policies for recapture of PILOTs should the applicant not meet certain criteria.

The following are the aggregated PILOT agreements by purpose and the amount of real property tax that has been abated for the year ended June 30, 2017.

Purpose	Assessed Taxable Value	Tax Value	PILOT Received	Amount of Tax Abated
Rensselaer County Industrial Development Agency:				
Provide Senior Housing	\$ 9,332,400	\$ 373,399	\$ 301,709	\$ 71,690
Promote Job Creation	144,161,663	4,478,947	2,047,309	2,431,638

Provide Hotel & Conference Space	16,573,200	393,464	283,516	109,948
Provide Accessible Health Care	4,296,000	225,297	147,229	78,068
Promote Affordable Housing	8,630,000	213,615	195,635	17,980
Promote Rt 9&20 Economic Growth	356,800	8,473	7,978	495
Promote Job Retention	58,952,500	1,399,892	191,246	1,208,646
Utilize Vacant Building Space	34,735,600	824,835	535,773	289,062
Provide Electric & Steam Capacity	65,836,299	1,563,356	120,573	1,442,783
		<u>9,510,289</u>	<u>3,859,979</u>	<u>5,650,310</u>
Village of Nassau:				
Village of Nassau Senior Housing	1,299,050	39,447	1,983	37,464
Total		<u>\$ 9,549,736</u>	<u>\$ 3,861,962</u>	<u>\$ 5,687,774</u>

14. CONTINGENCIES AND COMMITMENTS

Litigation

The School District has been named as a defendant in several tax certiorari cases. A review by management and the School District's attorneys indicate these actions are substantial enough to materially affect the financial position of the School District, however the School District believes the tax certiorari reserve of approximately \$900,000 is adequate to cover any potential settlements that could occur.

Other Contingencies

The School District has received grants which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the School District's administration believes disallowances, if any, will be immaterial.

Commitments

The School District has various commitments with contractors for the completion of capital projects over the next several years.

15. RELEVANT ACCOUNTING PRONOUNCEMENT ISSUED NOT YET IMPLEMENTED

In June 2015, the GASB issued Statement No. 75 *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Statement No. 75 replaces the requirements of Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employer and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plan Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. The School District is required to adopt the provisions of these Statements for the year ending June 30, 2018.

In March 2016, GASB issued Statement No. 82, *Pension Issues-An Amendment of GASB Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73 Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. The Statement addresses issues related to the presentation of payroll related measures in required supplementary information, selection of assumptions and the treatment of deviations and classification of payments made by employers to meet employee contribution requirements. The Statement takes effect for reporting periods beginning after June 15, 2016 except for the selection of assumptions in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end in which the effective date is on or after June 15, 2017. Earlier adoption is encouraged.

In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations* (GASB 83). GASB 83 addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The School District is required to adopt the provisions of these Statements for the year ending June 30, 2019.

In January of 2017, GASB issued Statement No. 84, *Fiduciary Activities*. The objective of Statement No. 84 is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The School District is required to adopt the provisions of these Statements for the year ending June 30, 2020.

The School District has not assessed the impact of these statements on its future financial statements.

REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED)

REQUIRED REPORTS UNDER UNIFORM GUIDANCE

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

October 13, 2017

To the Board of Education of
East Greenbush Central School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of East Greenbush Central School District (School District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated October 13, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

October 13, 2017

To the Board of Education of
East Greenbush Central School District:

Report on Compliance for Each Major Federal Program

We have audited the East Greenbush Central School District's (School District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2017. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

6 Wembley Court
Albany, New York 12205
p (518) 464-4080
f (518) 464-4087

www.bonadio.com

(Continued)

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE (Continued)

Opinion on Each Major Federal Program

In our opinion, East Greenbush Central School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EAST GREENBUSH CENTRAL SCHOOL DISTRICT

NOTES TO SCHEDULE OF EXPENDITURES AND FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2017

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the East Greenbush Central School District (School District), under programs of the federal government for the year ended June 30, 2017. The information in the Schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Because the Schedule presents only a portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows for the School District.

2. BASIS OF ACCOUNTING

The Schedule is presented using generally accepted accounting principles, as described in the School District's basic financial statements.

3. INDIRECT COSTS

Indirect costs are included in the reported expenditures to the extent they are included in the financial reports used as the source for the expenditures presented.

The School District did not elect to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

4. MATCHING COSTS

Matching costs, i.e., the School District's share of certain program costs, are not included in the reported expenditures.

5. SUBRECIPIENTS

No amounts were provided to subrecipients.

6. NONMONETARY ASSISTANCE

The School District is the recipient of a federal financial award program that does not result in cash receipts or disbursements termed a non-monetary program. During the year ended June 30, 2017, the School District received food commodities, the fair value of which amounted to \$65,554 is presented in the Schedule as National School Lunch Program (CFDA No. 10.555).
