

ANNUAL ASBESTOS NOTIFICATION 2018- 2019 SY

To: All East Greenbush School District Employees
All PTO Building Presidents
All Building Principals
Transportation Supervisor

From: Paul Bickel, LEA Asbestos Designee and Director of Facilities

In compliance with State and Federal regulations, the East Greenbush Central School District is required to notify employee unions, Parent/Teacher Organizations and others that use school facilities, of the existence of known **Asbestos Containing Building Materials (ACBM) located within District buildings.**

Located in the Main Office of each school building is a binder named the “Asbestos Management Plan”. This document contains important information as to the location and condition of known ACBM within that particular building. Regulations require an annual notification of asbestos related activities that have recently occurred and any planned activity for the current school year.

There was no abatement activity conducted in the district last year.

As per Federal Regulation, the District is required to perform 6-month surveillances of all known ACBM to confirm that continual monitoring of the condition of known ACBM is performed. The next surveillance will occur during the fall of 2018.

If you have any questions about this notification, or any asbestos related concern, feel free to contact me at (518) 207-2521.
