

ANNUAL ASBESTOS NOTIFICATION 2019-2020 SY

TO: All East Greenbush School District Employees
All Parent Teacher Organization (PTO) Building Presidents
All Student Parents/Guardians

FROM: Paul Bickel Jr., LEA Asbestos Designee and Director of Facilities

SUBJECT: Annual Asbestos Notification

East Greenbush Central School District is required to notify employee unions, PTO's, student parents, guardians, and all others that use school facilities of the existence of presumed and confirmed asbestos containing building materials.

In maintaining compliance with the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), the district is required to perform re-inspections of all presumed and confirmed asbestos containing building materials every three years by a New York State certified inspector. Inspection findings are located in asbestos management plans. Six-month visual surveillance inspections are also performed during the school year by qualified individuals, which are on file in the asbestos management plan. All presumed and identified asbestos materials in the school district remain in good condition and are monitored as recommended by EPA guidelines.

Asbestos management plans for district buildings are available for review during normal business hours. Please contact the Asbestos LEA Designee, Paul Bickel Jr., Director of Facilities at (518) 205-2521 for any questions concerning asbestos in our district buildings.
