Additional Highmark Programs and Resources

Available at no cost to you through your Highmark benefits

Well360 Diabetes Management Powered by Onduo

Well360 Diabetes Management is a virtual care program that:

- Comes with your health plan and helps you manage your care from the comfort of anywhere.
- Uses a smartphone and the Onduo app to provide access to the virtual health clinic and your care team.
- Gives you a personalized plan with ongoing, coordinated support between visits to your primary care provider.

Type 2 diabetes is manageable — especially when you have the right tools and team in your corner.

Day-to-day support to help you live your best life!

Sword Virtual Physical Care

Get expert guidance at your fingertips with Sword.

Combining personalized support with the latest digital tools,

Sword gives you the freedom to help overcome joint and muscle pain anytime, anywhere.

Here's how it works:

Using a tablet and motion sensors that track and guide your movement, you're matched with a physical therapist who creates a customized, self-guided care plan, then monitors your progress while providing ongoing support.

Sword can help relieve:

- ✓ Back pain
- ✓ Shoulder pain
- ✓ Neck pain
- ✓ Knee pain
- ✓ Elbow pain
- ✓ Hip pain
- ✓ Ankle pain
