POLICE DEPARTMENT
TOWN OF EAST GREENBUSH
225 COLUMBIA TURNPIKE
RENSSELAER, N.Y. 12144-4104

In accordance with Correction Law 168-1(6), information about certain sex offenders may be disseminated by the local law enforcement agency to an entity with a vulnerable population related to the nature of the offenses committed by the offender.

The local law enforcement agency where the offender currently resides, can, if it chooses, release information on sex offenders residing in the community to “entities with vulnerable populations related to the nature of the offense”. The law enforcement agency can only release information on level 1, level 2 and level 3 offenders through community notification. Therefore, there is no community notification for sex offenders whose status is Pending. Also, while the exact address of level 2 and 3 offenders can be provided, the law provides that only an approximate address based on zip code can be provided for level 1 offenders. Please note that a federal court injunction currently prohibits the release of information through this method concerning sex offenders who committed their crime prior to January 21, 1996 and were assigned a risk level prior to January 1, 2000.

What are the listed offender levels?

The type of information that is available to the public about an offender depends on an offender’s risk level, of which there are three:

- Level 1: low risk of re-offense: Residence information for these offenders is limited to zip code information.
- Level 2: medium risk of re-offense: Complete residence address is available for these offenders
- Level 3: high risk of re-offense: Complete residence address is available for these offenders
